

Program

Hands on international cooperation

Two days contact seminar focusing on international cooperation, the UN development goals, and knowledge about how to work with the international dimension within primary and secondary school education – pupils age 14-18

Riga, Latvia

13.-14. November 2019

Aim

The aim of the seminar is to qualify the international dimension and the schools' focus on the UN development goals in primary and secondary schools - how to work internationally, how to use ICT as communication tools between pupils globally, and where to apply for funding.

Finding partners and getting to know each other is often the first step; therefore, The Danish Efterskole Association is arranging another contact seminars for the Danish teachers to meet their European colleagues.
